## **MEMORANDUM**

**SUBJECT: Feasibility Study – Clarification and Editorial Correction  
Midnite Mine Superfund Site**

**FROM: Karen Keeley, RPM**

**TO: Midnite Mine Site File**

The purpose of this Technical Memorandum is to correct an error in a document in the Site File for the Midnite Mine Superfund Site. This document is also part of the Administrative Record.

The Table of Contents for the Feasibility Study (FS) for the Midnite Mine Superfund Site [SEMS 500009634; dated 09/30/2005) incorrectly shows that the FS has “Appendix G” and “Appendix H.” The FS does not include those appendices because they are not part of the FS and listing these two appendices in the Table of Contents was an editorial mistake.

A page correction is attached.

## **CONTENTS (Continued)**

### **APPENDICES**

Appendix A	Technology Screening Tables
Appendix B	Cover Analyses
Appendix C	Quantity Estimates
Appendix D	Unit Cost Estimates
Appendix E	Pit 3 and Pit 4 Capacity Estimates
Appendix F	Estimated Uranium Loads in the Far Eastern Drainage
<del>Appendix G</del>	<del>Water Table Measurements</del>
<del>Appendix H</del>	<del>Exceedance Wheel Plots</del>
